

SOLUTIONS THAT ELEVATE

For Over 40 Years

“The most important part of this business is that we really care about our team & customers! I believe we’re the best fabric finishing operation too, but it wouldn’t matter without taking care of our people.”

- Gene Banks, Founder & President

Solutions that Elevate is much more than a tagline. At SBI, we enable fabrics to exceed expectations by optimizing their performance, function and lifespan. We take pride in the fact our solutions and service elevate the craft of our clients, while also setting the bar for the industry at large!

Our solutions range from the industry’s-best Stain Protection, Flame Retardant, Antimicrobial and other critical finishes, to backings that add strength, durability, and resiliency. You can count on SBI for quality results, fast turnaround times and up-to-the-minute status updates, accompanied by expert packing, handling and shipping, domestically and worldwide.

FABRIC FINISHES

Defend-All™ Series

DEFEND-ALL™ PREMIUM STAIN PROTECTION

Our exclusive formula protects against water-based stains, oil-based stains & everyday spills, while resisting dust, soil and other residue. It also increases the lifespan of fabrics by enhancing their rub-resistance which minimizes noticeable wear.

DEFEND-ALL™ FLAME RETARDANT

Our highly advanced Flame Retardant finishes enable fabrics to meet the industry's most stringent flammability standards. As America's leading expert in the application of flame retardants, our proprietary techniques help maintain the natural beauty and hand of fabrics.

DEFEND-ALL™ HEALTH

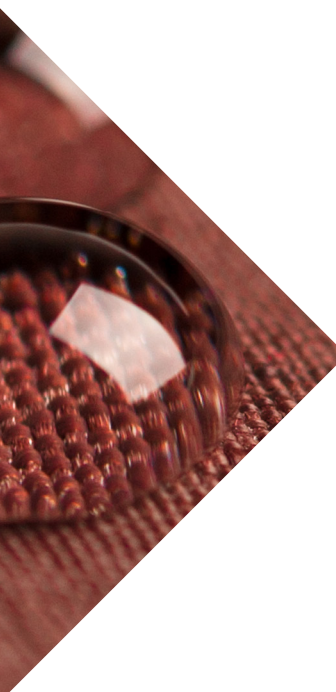

An elite combination of stain & oil protection, virus & bacteria inhibitors, antimicrobial, mold/mildew resisters & a moisture barrier. This commercial-grade technology provides the ultimate protection for fabrics in high traffic or rigorous environments. Commonly specified for the hospitality and health care industries.

Additional Fabric Finishes

Defend-All™ Flame & Stain Protection

Defend-All™ Antimicrobial Protection

BACKINGS & LAMINATIONS

Reinforce™ Series

REINFORCE™ KNIT BACKING

The industry's-best Knit Backing provides the ideal amount of reinforcement to fabrics used in upholstery, drapery and various other applications. This backing increases the dimensional stability of fabrics and prevents fraying. It adds strength and a luxurious hand to otherwise fragile fabrics, effectively increasing durability, resiliency and lifespan.

REINFORCE™ 117 BARRIER BACKING

Our Research and Development Team has created the ultimate solution to ensure that ALL of your fabrics will be in compliance with CAL TB 117-2013 standards -- Tested and Certified. Like our Knit Backing solution, this new application adds stability and an extra layer of durability to your fabrics. Best of all, the application is 100% environmentally friendly.

REINFORCE™ ACRYLIC BACKING

This durable backing stabilizes and reinforces upholstery fabrics, while improving their handling characteristics and maintaining their flexibility. It prevents fraying and seam slippage by increasing the fabric's strength. This backing is rated for outdoor applications

Additional Fabric Backings & Lamination Services

Reinforce™ Wall Upholstery Backing

Reinforce™ Flame Retardant Backing

“As a young firefighter in Dallas, TX, I experienced first-hand the devastation that fire brings to lives and communities. This lit a torch in me to create solutions to prevent these disasters, and soon became the driving force behind the start of our company. 40+ years later, we still operate the company with the same core values that led to SBI’s inception: We always treat each customer with the respect that they deserve, and we work to protect and improve the lives of our clients and their fabrics.”

- Gene Banks, Founder & President

UNPARALLELED CUSTOMER SERVICE

We give every order close personal attention. Our customer service team is dedicated to ensuring your satisfaction.

HIGH-CAPACITY SYSTEMS

Our high-capacity, state-of-the-art equipment and finishing systems allow us to handle any order, from one yard to hundreds of thousands.

FAST TURNAROUND TIMES

Our lead times are the fastest in the industry. To meet your project deadlines, we also offer 24 hour, 48 hour and 3-4 day expedited options on all finishing and backing services.

UP-TO-THE-MINUTE TRACKING

Our in-house fabric tracking system provides up-to-the-minute status from the moment of receipt. Rest assured that your fabric is being processed and shipped on time.

NON-TOXIC, EARTH-FRIENDLY FORMULAS

We use lab-certified, non-toxic formulas allowing you and others to enjoy SBI-treated fabrics with confidence.
